

## bar hoppin'

Mike Stud

This ain't what I wanted, but it's all I needed  
I been on that hard shit and it's going down easy  
At least I'll be honest by the time that you see me (Yeah)  
Yeah, came here with nothing, but I'm looking for something  
Little southern belle to ring whenever I want it  
I'm somewhere in the middle if you trying to meet me  
Let's link up, link up

Go bar hoppin', we can start down the road  
Let the liquor take full control  
Bar hoppin', downtown thrills  
Chasing something that we both let go

Let's go back, back  
Back to where we last kissed  
Wishing that we lasted  
And I know we don't feel the same, feel the same  
Go slow, babe  
Don't rush to the hard part  
Pour one on that bar top  
'Cause I don't want to feel a thing anyways (Hey)

Ayy, tell that to the girl that I used to know  
She got whiskey on her breath and she cute to me  
Red lips on her glass and some heels to match  
How you running round town straight curving me  
Doing shit for someone else that you learned from me?

Bar hoppin', we can start down the road  
Let the liquor take full control  
Bar hoppin', downtown thrills  
Chasing something that we both let go

But I roll up and you stay down  
I pour up and the truth came out  
Bar hoppin' sounds, sounds good to me  
Bar hoppin' sounds even better with you

Let's go back, back  
Back to where we last kissed  
Wishing that we lasted  
And I know we don't feel the same, feel the same  
Go slow, babe  
Don't rush to the hard part  
Pour one on that bar top  
'Cause I don't want to feel a thing anyways (Hey)

Same spot we met back in August  
Talking 'bout things that we wanted  
Whole thing was real by September  
Let's drink so I can't remember  
I saw a future, you knew that  
Had a chance to do that, we blew that  
Whole thing was done last September  
Good thing that I can't remember

Let's go back, back

Back to where we last kissed  
Wishing that we lasted  
And I know we don't feel the same, feel the same  
Go slow, babe  
Don't rush to the hard part  
Pour one on that bar top  
'Cause I don't want to feel a thing anyways (Hey)

Tell that to the girl that I used to know  
That's just the girl that I used to know
