

blue water

Mike Stud

Woke up looking at the blue water
Your car in the driveway
I say "Got a 10, she do what I say"
On time, on time is what the time say
Yeah

'Cause all I wanna do, yeah
Is run shit up with you, yeah
After all them times we been through, gotta look around a little
All I wanna do is hit the gas, yeah
Run shit up with you, looking back, yeah
All them things we been through
Meet me somewhere in the middle (In the middle)

Woke up looking at the blue water
'Cause I remember them days when I didn't
I remember who I was in the beginning, 'till the ending

Yeah
I got that kind of gold money
Keep you on hold money
If you wanna hold some
I got that on a roll money
I ain't going cold money
But I got a cold one (I do)

Woke up looking at the blue water
Your car in the driveway
I say "Got a 10, she do what I say"
On time, on time is what the time say

'Cause all I wanna do, yeah, is run shit up with you, yeah
After all them times we been through, gotta look around a little (Just look)
All I wanna do is hit the gas, yeah
Run shit up with you, from the lap, yeah
All them things we been through
Meet me somewhere in the middle (In the middle)

Woke up looking at the blue water
'Cause I remember them days when I didn't
I remember who I was in the beginning, 'till the ending

Can we roll another one please?
Feel like that gon' help me breathe
Let me just find my way
Maybe get lost with me
Let me just make some ways for a little
Let me just set you free
Let me just find my way
Find my way back to me
Yeah

Woke up looking at the blue water
Your car in the driveway
I say "Got a 10, she do what I say"
On time, on time is what the time say

All I wanna do
The water is blue
I'm looking at you
The light is green
Allowing things to come together now
I'm fleeing the scene
I'm leaving it to be
I'm leaning on you, you're leaning on me
We're all together now

'Cause I remember them days when I didn't
I remember who I was in the beginning, right 'till the ending
