

Can't Say No

Mike Stud

Got me mixing liquor
Whisky in my bottle
Ooh, you ready?

She try to act like she is out my league
But every night she playing on my team
She take it off and put it all on me
She what I want but she ain't what I need, what I need, yeah
Writing's on the wall but we ain't tryna read it
Talk a lot of shit but she don't really mean it
Why you so defensive, what you think your read is?
You always call me out but let's just call it even

Don't try and act like you like sleeping alone
Don't play no fucking games
I know in when I call you go pick up the phone
You know you can stay for the night

I go right, you go left, but you stay on my mind
I do this, you know that, keep me staying alive
Yeah we dealt with some shit, I'm still playing my cards
And I can't say no
I go right, you go left, but you stay on my mind
I do this, you know that, keep me staying alive
Yeah we dealt with some shit, I'm still playing my cards
But I can't say no

You look better when you're next to me
You got that sauce, yeah that recipe
You kill em all, yeah rest in peace
She come and fuck me
Then she wet my tee, and roll some weed
We always on the same page when we getting high
Come kick it at my place we can catch a vibe
You only going through a faze I can let it ride
The only time you open up is when I get inside

Don't try and act like you like sleeping alone
Don't play no fucking games
I know in when I call you go pick up the phone
You know you can stay for the night

I go right, you go left, but you stay on my mind
I do this, you know that, keep me staying alive
Yeah we dealt with some shit, I'm still playing my cards
And I can't say no
I go right, you go left, but you stay on my mind
I do this, you know that, keep me staying alive
Yeah we dealt with some shit, I'm still playing my cards
But I can't say no

Yeah I'm always right
Yeah you're never wrong
Yeah I play along
Yeah you piss me off
With that shit you want
Still I can't move on

Yeah I'm always right
Yeah you're never wrong
Yeah I play along
Yeah you piss me off
With that shit you want
Still I can't move on

I go right, you go left, but you stay on my mind
I do this, you know that, keep me staying alive
Yeah we dealt with some shit, I'm still playing my cards
And I can't say no
I go right, you go left, but you stay on my mind
I do this, you know that, keep me staying alive
Yeah we dealt with some shit, I'm still playing my cards
But I can't say no
