

# High Hopes

Mike Stud

Captain of the ship  
Captain in my Coke  
If the ship's going down  
Then I'm going with the boat  
And I stay down when it's going up in smoke  
That's what I call high hopes  
Fuck the sheep I'm the goat  
I'm the G you the Joe  
On her knees on a boat  
Fuck her deep in the throat  
In the Jeep blowing smoke  
You peak in high school I peak as I go  
Look, I don't give a fuck about the who's who  
If you wasn't with me from the jump I gotta lose you  
Bitch, excuse you  
Guess she got a couple screws loose  
But I eat her in the morning like some fucking Froot Loops  
Yeah, then I gotta work  
Call you when I get off  
Promise you gon' get off  
Promise you gon' get all  
Give me that brain like get out then go and get on

Slow down  
Girl you moving too fast, whoa now  
Girl you moving too fast, slow down  
Girl you moving too fast, whoa now  
Girl you moving too fast  
Slow down, whoa now

I got a chick from Texas her nickname Florida  
Cause she love the Marlins and she fucked like four of 'em  
Yeah, and if they make that trade she been hoping for  
I'm pretty sure she gon' fuck a couple more of 'em  
I'm a Steve so, where's my accordion  
I'm in the studio recording shit til the morning hits  
And by the time the morning ends I'll be mourning then  
Cause I just made a couple songs and killed every one of them  
At 21 I'm pretty sure that I was born again  
I bought a one way ticket to the show and now I'm boarding it  
I'm Scott Disick, got bitches I'm the lord of them  
And I'm pretty busy but I'll call you when I'm bored again  
Yeah, cause I'm starting to have fun now  
I'm relaxed, wrote this in the bath like run's house  
But it's my house  
Blow the whistle that's a timeout

Girl you moving too fast, whoa now  
Girl you moving too fast, slow down  
Girl you moving too fast, whoa now  
Girl you moving too fast  
Slow down, whoa now  
Girl you moving too fast, slow down  
Girl you moving too fast, whoa now  
Girl you moving too fast, slow down  
Girl you moving too fast  
Slow down, slow down
