

Lonely Hour

Mike Stud

I think about you in the lonely hours
When the dusk turns dawn
Are you up right now?
Are you by yourself?
What do you got on?
I think about you in the

Used to pull up on you like a nose dive when you said let's link
Used to drive you around like a chauffeur when it was just a lease
Used to party with you like every night like we was 23
Used to double date with my dog and your friend Emily

Damn baby God damn
I still think about you but my heart knows that we can't
I mean damn how the fuck can I plan a future when you was always in the plans

Okay them lonely nights got me drinking after hours
Blacked out need you on my body like a shower
Lemme slide baby we can keep it on the low
Only you know

I think about you in the lonely hours
Are you up right now?

What do you got on?

It was only you only if you knew it was only you
Way before I even saw that ass I was following you
To the moon all the way and back yeah you know it's true
Only you even when you mad girl you always cute you know it too
Life is getting hard when I was waiting for you
I been going hard getting paper for you
Way before I even knew the cost, I would pay it for you
Way before I even knew what it was, I would pay it for you

And my wifey love me with all I am
You nothing like her love her with all I am
I'mma give you everything yeah you all I have
I'm gonna fuck you everyday that you're in my bed

I think about you in the lonely hours
When the dusk turns dawn
Are you up right now?
Are you by yourself?
What do you got on?
I think about you in the
