

How'd you wake up on your job  
Got me faded off your vibe  
All I know is I need more  
How'd I wake up on the floor  
I don't know which way I'm going  
But I know I need more

Let the bodies hit the floor  
Let the bodies hit the floor  
Let the bodies hit the floor  
Let the bodies  
Let the bodies hit the floor  
Let the bodies hit the floor  
Let the bodies hit the floor  
Let the bodies

Long legs (Let the bodies hit the floor)  
Runnin all around in my bed (Let the bodies hit the floor)  
Runnin all around in my head again (Let the bodies hit the floor)  
(Let the bodies)  
She got long legs (Let the bodies hit the floor)  
Runnin all around in my head (Let the bodies hit the floor)  
Runnin around in my head again (Let the bodies hit the floor)  
(Let the bodies)

It went green then it go  
It went green then we go  
It go green then it go  
It go green then we go  
It go green green green  
It go green

Hit the switch and then it go  
Light go green and then we go  
Let the bodies hit the floor  
Let the bodies  
Let the bodies  
Let the bodies go

She got long legs  
Runnin all around in my head  
Runnin all around in my head  
Runnin all around in my head  
She got long legs  
Runnin all around in my head  
Runnin around in my head again

Out on biscayne  
Beach in the backyard I'm on big wave  
Out on biscayne  
She wanna fuck with me cause I'm on big wave  
That's that shit though  
Walking out the crib all on her tip toes  
Don't know who she is  
In them Gucci heals

It was green  
Then it go  
It went green  
Then we go

It go green  
Then it go  
It go green  
Then we go  
It go green  
Then we go  
It go green green green  
It go green green green

It go green  
Then we go  
It go green  
Then we go  
It go green  
Then she goes  
It go green  
Then she goes  
She got long legs
