

# mountains

Mike Stud

Yeah

Yeah

Yeah

Shout it from the mountain tops, yeah

Shout it from the mountain top

Shout it from the sky (Ayy)

Shout it on the mountain top, yeah

I thought I said that I never know

Fuck did you say? (Fuck did you say?)

I'm on my way and I'm on a wave

So get out of my way, way, way

I do this shit that I like to do

I took a ride on the avenue, right to your place

Pour up a double, 'cause I'm here to stay, pour up a double and

All I wanna know is if the door is open

All I wanna do is go somewhere with you, yeah

I don't even know where, but if you wanna, I'll go there

Now all I wanna do is go somewhere with you (Yeah)

Just take me as I am

Shout it from the mountain tops, ayy

Shout it from the mountain top

Shout it from the sky

Shout it on the mountain top, ayy

Blame it on me, yeah

Girl let me tell you the bag different

When you just stay in your bag

Can't no one tell me to act different

I got my foot on the gas

And I never trip with our bags

I'm with my dogs in the back, check it

But I'm heading over to yours

But all I wanna know is if the door is open

All I wanna do is go somewhere with you

I don't even know where, but if you wanna, I'll go there

Now all I wanna do is go somewhere with you, yeah

Just take me as I am

Shout it from the mountain tops, yeah

Shout it from the mountain top

Shout it from the sky

Shout it on the mountain top, yeah

But all I wanna know is if the door is open

All I wanna do is go somewhere with you

I don't even know where, but if you wanna, I'll go there

Now all I wanna do is go somewhere with you, yeah

Just take me as I am

But all I wanna know is

But all I wanna know is

But all I wanna

But all I wanna

But all I wanna  
But all I wanna know is  
But all I wanna
