

music when i'm high

Mike Stud

It sound like music when I'm higher (Yuh, uh yeah, yeah)
Yeah

I done seen death row, you not fuckin' scaring me
I ain't even scared to leave, you don't put no fear in me
100,000 dollars nowadays for the appearance fee
But fuck your money, ain't nobody telling me where to be
Yeah, aye, truth is what I'm here to speak
Don't care if no one hear me
I got people near and dear to me that still ain't here for me
The minute that I heard your voice, you sounded like my family
Sounded like a melody to me, yeah

Yeah, I just want to talk
I don't really want to fight, though
I just need a break, quick break from my mind, now
Cruising through LA, we could drift with our eyes closed
Everything you say, yeah
Sound like music when I'm higher

And higher, and higher, and higher (Higher)
It sound like music when I'm higher
And higher, and higher, and higher (Higher)
It sound like music when I'm higher

And I just took another one, I'm trying to take you higher
Roll me up again, I make her sing like she Mariah
Came out with a tan when they threw us in the fire
Love the way you ride it, way before you got on top
Yeah, I knew that you was a rider, up, don't stop
I know that you could take me farther than I ever been with anybody else
Yeah, you my favorite one, you my favorite drug
And I might need another one

Everything you did (Uh)
Running through my head (Uh)
How could I forget? (Yeah)
Everything you did (Uh)
Running through my head (Uh)
How could I forget? (Yeah)
Drug, and I might need another one
Everything you did (Uh)
Running through my head (Uh)
How could I forget? (Yeah)
You sound like music when I'm higher, yeah
You sound like music when I'm higher

I just want to talk
I don't really want to fight, though
I just need a break, quick break from my mind, now
Cruising through LA, we could drift with our eyes closed
Everything you say, yeah
It sound like music when I'm higher

And higher, and higher, and higher (Yeah)
It sound like music when I'm higher (Yeah)
And higher, and higher, and higher (Yeah)

Yeah

It sound like music when I'm higher
And higher, and higher, and higher (Yeah)
You sound like music when I'm higher, yeah
And higher, and higher, and higher
And higher

I just want to talk
I don't really want to fight, though
I just need a break, quick break from my mind, now
Cruising through LA, we could drift with our eyes closed
Everything you say, yeah
It sound like music when I'm higher

Everything you did (Uh)
Running through my head (Uh)
How could I forget? (Yeah)
