

# Not Proud

Mike Stud

I'm not proud of what I did to you  
Not proud of what I did to you  
You're worth more than what I meant to you  
You don't need  
You don't deserve to

Think I feel it's a dub when it's an L  
Think I enjoyed all the love when you fell  
If you wonder where it got me know it's hell  
Though it prolly don't help when nobody can tell

Can't really pay without knowing the cost  
Just don't let your regrets be not giving your all  
You were always better than the old me  
Can't let you go without tellin you he told me

And I gotta live with the choice  
Been listening to the part of your heart that I took  
Now I gotta give it a voice  
I feel like I live in the void I created inside of you  
I was the one you confided to  
Whoa  
Should be on side of you  
Said I would die for you  
And I know you felt that lie to your soul

Just so you know  
She wasn't better at anything  
You had that heavenly energy  
No, it ain't fair  
Cuz if you had chose him to me  
I would've prolly shown empathy  
Now it's your fault, you're too good  
Move the mark, where you stood  
I wouldn't start, like you could  
Should've played my part, like you would

Don't know how I thought I was worth it  
Creepin - what I got is perfect  
Living I guess I'm still learning  
Learning to the live with the burden

Don't know how I thought I was worth it  
Creepin - what I got is perfect  
Living I guess I'm still learning  
Learning to the live with the burden

I'm not proud of what I did to you  
Not proud of what I did to you  
You're worth more than what I meant to you  
You don't need  
You don't deserve to

You were always better than the old me  
Can't let you go without tellin you he told me

No, I can't let you go, can't let you go  
I've been blowin' on the smoke, blowin' on the smoke  
And some girls been around  
I've been fuckin' around plenty of them  
Now I don't fuck with many of them  
Now I don't really fuck with any of them now (I don't)  
And I'm not proud of what I did  
Told you time and time again  
I'm not proud of none of this, no  
I'm not too proud to call again  
And I'm not tryin' to call it quits  
At least I call it how it is, yea  
Blowin' of steam, I've been blowin' off a little bit a steam  
Doing your thing you've been out here doing your thing  
I'ma be good, but not as good without my queen around, no

I'm not proud of what I did to you  
Not proud of what I did to you  
You're worth more than what I meant to you  
You don't need  
You don't deserve to

Think I feel it's a dub when it's an L  
Think I enjoyed all the love when you fell
