

## Past Gone

Mike Stud

Now let me tell you about a girl I know  
Well not really, I met her on a tour stop outside of Philly  
She was front row, reached her hand so I could feel it  
I kept lookin' at her, she knew every single lyric  
It was dope  
I stuck around after the show to go and kick it with the fans  
Who come to see us on the road  
It was all love  
Bunch of pictures and hugs  
But that's when I learned just how different she was  
See she was 19 and addicted to drugs  
And almost died last year  
Sometimes she wishes she was  
And she was cryin'  
Her brother was with her, he came too  
He nodded and he said that everything she's saying's true  
And then she said tonight was the best night of her life  
And even if it didn't last, right now it feels right  
I looked her in the eyes, and put it on my life  
That we gon' work on this together  
And she gon' be alright, I know

So when you feel alone in the night time  
Just know that you ain't ever on your own  
Cause every body goes through the low oh ohs  
And I just want you to know oh  
Just know that I believe in you  
Like you believe in me  
Just know that I believe in you  
Like you believe in me  
Like you believe in me  
Yeah, yeah, like you believe in me

See things happen in crazy ways  
I swear to god since that day I've changed my ways  
Now every day when I wake up I reach over  
Grab my phone, send a text to her  
To tell her know she's not alone  
And I promise that I won't forget  
Cause on the real, it's so sad, she's so depressed  
And through our daily conversations  
What I've learned about depression  
Is that it's hard to know the answers when you don't know the questions  
Cause she don't understand why she feels the way she does  
No matter what she tries, man it never is enough  
And a few months back for one night  
I felt the pain that she felt her whole life  
Cause she called and said that she was ready to go  
And said thanks for everything, but she was ready to go  
I said please don't, there's something you gotta know  
I wrote a song about you, and this is how it goes

So when you feel alone in the night time  
Just know that you ain't ever on your own  
Cause every body goes through the low oh ohs  
And I just want you to know oh  
Just know that I believe in you

Like you believe in me  
Just know that I believe in you  
Like you believe in me  
Like you believe in me  
Yeah, yeah, like you believe in me

It was five hours later when we hung up  
She was tired and the sun was startin' to come up  
But yo, we spent that whole night just talkin' it through  
And at that point, there wasn't much more I could do  
But what I did say, is that she needed to promise me  
She wouldn't do anything crazy without callin' me  
And so far, man things have been better  
We talk way less cause things have been better  
And last time she called was my birthday night  
And it was the best gift I've gotten in my life  
She said remember that time when you sang me that song  
Without that night, I'd be way past gone  
So, thank you

So when you feel alone in the night time  
Just know that you ain't ever on your own  
Cause every body goes through the low oh ohs  
And I just want you to know oh  
Just know that I believe in you  
Like you believe in me  
Just know that I believe in you  
Like you believe in me  
Like you believe in me  
Yeah, yeah, like you believe in me  
Like you believe in me, yeah  
Like you believe in me
