PCH driving I needed some inspiring
Peace and quiet
I'm running from the sirens
They ain't been around
But they know about where I been
Had to put the time in
To let em know what time it is

Fuck a plug
You don't need it when you plugged in
They know it's us
We don't need no introduction (Yeah)
It's just us
We don't need no one for nothing (Nothing, I don't)
But it's always something
Skipping town
Cause I really can't be around it
Sometimes the only way to go is right around it
Had some shit to say
I didn't like the way it sounded
So I left it where I found it

Why stop now
Why stop now, yeah
Not my style
Not my style, yeah
Drop top down
That's my style
Why stop now
Baby why stop now

PCH driving
I needed some inspiring
Peace and quiet
I'm running from the sirens
They ain't been around
But they know about where I been
Had to put the time in
To let em know what time it is

Got that in common
We all feel the pressure
Bitch I'm plugged in
Yeah the vibe is electric
Room full of Carmens
They all tryna sex me
Feel like Dennis Rodman in 1997
You ready? (you ready?)

I don't do this but I do tonight (I do)
Eat that pussy like it's food tonight (Sheesh, yeah)
They don't love me but it's cool tonight (Yeah, yeah)
I like to keep it loose
But keep the moves tight (Uh)
You was right
Running numbers up
I'm shooting dice

Fuck a suit and tie
I'm loosey goosey
But the moves are tight (Yeah)
Louis slippers never slipping
I just like to slide
I was on your side
'Til you grouped me with these other guys (Sheesh)
Hand on the blunt
I ain't done
Here come the sun
Hair up in a bun, yeah
And I like what I see
She a freak
Said she only really do this shit for me
That's a cap (That's cap)
