

smiley water

Mike Stud

I die once but live every day
They can't say the same yeah
I been smokin on a loud pack
I can't hear a thing they sayin

We die once but live every day
Whole different kind of conversation don't talk to me
Whole different kind of convo
We die once but live every day
Whole different kind of conversation don't talk to me
Whole different kind of convo
Whole different kind of conversation don't talk to me
Whole different kind of conversation don't talk to me
Whole different kind of convo

I ain't sleep but I woke up
I can't live my life, living my life life life
I can't live my life, can't do it right right right
I can't live my life, living my life life life
I can't live my life can't do it right
This smiley water got me anxious
These lights above they got my antsy
I ain't sleep but I woke up feeling dangerous

Whole different kind of conversation don't talk to me
Whole different kind of convo
We die once but live every day
We die once but live every day

This smiley water got me anxious
This smiley water got me anxious

These lights above they got my antsy
Whole different kind of conversation don't talk to me
These lights above they got my antsy
Whole different kind of conversation don't talk to me
I ain't sleep but I woke up

I can't live my life, living my life life life
I can't live my life, can't do it right right right
I can't live my life, living my life life life
I can't live my life can't do it right

Whole different kind of conversation don't talk to me

I die once but live every day
They can't say the same yeah
I been smokin on a loud pack
I can't hear a thing they sayin
We die once but live every day
We die once but live every day
