

## Sooner or Later

Mike Stud

It feels so good  
It feels so good

We're too fucked up to drive  
Can't have no DUI's  
I just caught me a driver  
Come with me for the ride  
Do this shit all the time girl  
Just so we feel alive  
We gon' break all the rules girl  
We gon' catch us a vibe  
She gave me all I need  
All that and then some  
Ain't worried 'bout the scene  
We made our own one  
Now I'm doing what I want to  
And they pay me for the walkthrough  
That's for everything I've gone through  
Gone through, yeah

Life is short but we in it for the long run  
Can't turn it off, especially when we're on one  
We're all the same, we all got our problems  
We all our problems  
And sooner or later you'll find out  
That life is short but we in it for the long run  
Can't turn it off, especially when we're on one  
We're all the same, we all got our problems  
We all our problems  
And sooner or later you'll find out

Moving like a player  
Do it for the paper  
I ain't got no limits like my data  
Wait up bring the change  
I'm like the waiter  
Straight up like my middle finger to a hater  
Catch me if you can I just called your friends  
You can call me Lance  
Heard you had some plans  
You should cancel them  
Come on take a chance  
Call up all your friends  
Then put on some pants  
Wait, fuck am I saying  
Don't put on no pants  
Know you understand  
I'm coming to you now  
So high up there's no comedown  
Tryna find my way somehow  
Hope it works this time around  
'Til we're gone we won't find out

Life is short but we in it for the long run  
Can't turn it off, especially when we're on one  
We're all the same, we all got our problems  
We all our problems

And sooner or later you'll find out  
That life is short but we in it for the long run  
Can't turn it off, especially when we're on one  
We're all the same, we all got our problems  
We all our problems  
And sooner or later you'll find out
