

## Summer Swag

Mike Stud

The summer's here and I'mma live free  
Best time of the year, go hit the beach  
Summer sun got me loving life  
I'mma have me some fun tonight, right

I had to say peace to DC, Arenas  
Making a racket, Serena and Venus  
Everything's lined up, something like a seamstress  
Well not really but keep that between us  
Middle fingers up, fans by the bunches  
Quarterback at practice, you can't touch this  
Swagger on a hundred, thousand, million  
Catch me offshore on a island, Gilligan  
Chilling in, sippin' on a beverage  
Fuck being serious: having fun is the message  
So we're chilling at the beach and forget sleepin'  
This whole season is a fucking weekend  
Young wild and free, my whole life ahead of me  
So I'm drinking heavily, steadily making memories  
I said adios to what I was supposed to be  
And now I'm me

Drinking on the beach  
Goodies in the zip lock  
Lose the heels girlfriend, but bring the flip flops  
Life's a beach when your toes in the sand  
Sun's hot so keep something cold in your hand  
Pack the back seat, make the car drop  
Presidential partying, yeah we make the bar rock  
And this time of year, it's a fun scene  
Tank tops, big shades and some sunscreen  
Making wrong decisions, with all the right people  
Yesterday was tight, but tonight will be a nice sequel  
Welcome to the life man, I'm telling ya  
Loving summer since Tommy and Angelica  
Warm days, cold drinks, got my mind clear  
Drink it up till I'm lit up like the Times Square  
Yeah, then we do it again  
Living life like a game and I'm shooting to win  
He shoots... he scores

I'm still trying to have f.u.n
