

sunfalls am

Mike Stud

This is what forever sounds like
This is what forever feels like
Gotta do whatever feels right
That's all I do

When I close my eyes
It's like you're in the room with me
The suns in my eyes
But I be seein you

When I close my eyes
It's like you're in the room with me
The suns in my eyes
But I be seein you

Lately when the sun fall
Baby all I need is you
I swear to God when it's dark
All I see is you
Girl when the feelings right
I feel it all the time
It feels like you only want me
When I'm on a vibe

Maybe we got nowhere else to go
Maybe we got nowhere else to stay
Maybe we got nowhere else to go

When the sun falls
I'll be there to pick you up when the sun falls
We don't even get along
When the sun come
I make a run for it
When the sun falls
We'll be so gone

When the sun keeps falling
I'm falling now
And the night keep calling
I'm calling now

When the sun falls
All I need is you
So drop a pin where you at
And I'll be seeing you

First thing I'm seeing you
First thing I do its like I'm seeing you
I got the sun in my eyes
But I'm still seeing through
You know when it's time to go
Then I'm leaving too

Lately when the sun fall
Baby all I need is you
I swear to God when it's dark
All I see is you

Woke up seeing double baby
I been seeing me and you
Now we all in trouble with it
I just wanna be with you
I don't even know a place
Cause I don't even know a place

When the sun falls
I be there to pick you up when the sun falls
We don't even get along
When the sun come
I make a run for it
When the sun falls
We'll be so gone

When the sun keep falling
We're falling now
And the night keep calling
And I'm calling now
When the sun fall
All I need is you
So drop a pin where you at
And I'll be seeing you

Cause I don't even know a place
That me and you can go away
Tryna keep you safe
I got it either way
Cause I don't even know a place
Cause I don't even know a place
Cause I don't even know a place
