

we die once

Mike Stud

Whole different kind of conversation don't talk to me
Whole different kind of convo
Whole different kind of conversation don't talk

I die once but live every day
They can't say the same yeah

I been smokin on a loud pack
I can't hear a thing they sayin

We die once but live every day
(Money talk money talkin I let it talk for me)
We die once but live every day
(Whole different kind of conversation don't talk to me)
Don't talk to me

I give and they get
Then they run around town beatin they chest
Like they forget
I can forgive for now but I will never forget
I love how it feel knowin the universe got my back
Love how it feel knowin that money gonna come right back

I love how it feels seein that phone number on my check
Love how it feel keepin it solid don't need to react
Love how it feel earnin my stripes I turn into ref
I blow the whistle I'm callin a cap
You took shots I'm takin em back

Whole different kind of conversation don't talk
Whole different kind of convo
Whole different kind of conversation don't talk
Don't talk to me

I die once but live every day
They can't say the same yeah
I been smokin on a loud pack
I can't hear a thing they sayin

We die once but live every day
(Million miles in these shoes bitch can't walk with me)
A million miles in these shoes
We die once but live every day
(Whole different kind of conversation don't talk to me)

They can't say shit
Bitch I'm in the matrix
You on the same shit
I'm in different places
They do the same shit
And wonder why they ain't changin
Y'all been talkin a lot
But you barely ever say shit
They can't say shit
