

Another Night

Mike Williams

It's been so long
Since I have seen your face
I'm a thousand miles away, from you
And It's a sad song I've been singing every day
But it will all be over soon

Cause I'll be
Back home tomorrow
And all the sorrow we ever knew
Will feel like a memory
Something bittersweet
Something we hold on to

I go crazy
Without you baby
I don't know what I'd do
And time won't change these feelings
Make me
Wish I was lying with you

And I know it's been a long long while since I held you
But I will be back in the morning
When you open your eyes
Cause I go crazy
About you baby
I won't last another night

It's so hard to
Act like everything is fine
When I'm spending all these nights
Alone...
And though we stare
Talking LSD for hours
I can kiss you
Through the telephone

But I'll be
Back home tomorrow
And all the sorrow
We ever knew

We feel like a memory
Something bittersweet
Something we hold on to

I go crazy
Without you baby
I don't know what I'd do
And time won't change these feelings
Make me
Wish I was lying with you

And I know it's been a long long while since I held you
But I will be back in the morning
When you open your eyes
Because I go crazy
Without you baby

I won't less another night

And I know it's been a long long while since I held you
But I will be back in the morning
When you open your eyes
Because I go crazy
Without you baby
I won't less another night

I go crazy
Without you baby
I don't know what I do
