

Closing Time

Mike Williams

Closing time
Does anybody care that I'm not fine
You know we all need help and I
Could really use a line

I'm at the bar and all the bottle
A lot of excuses
And by the same time tomorrow
Am I gonna lose it

There's a voice inside my head
Telling me to follow [?] again
And by the same time tomorrow
Am I gonna lose it

Tell me why do I keep going down the same road
I don't know how to start myself
I'm sinking like a stone, hmm

It's almost closing time
Does anybody care that I'm not fine
You know we all need help and I
Could really use a line
And all my life
I'm feeling like a stranger passing by
You know we all need help and I
Could really use a line

You know we all need help and I
Could really use a line

There's a voice inside my head
Telling me there's almost nothing left
Sitting alone, counting the minute
Search of the reason

Tell me, why do I keep going down the same road?
I don't know how to start myself
I'm sinking like a stone, hmm

It's almost closing time
Does anybody care that I'm not fine
You know we all need help and I
Could really use a line
And all my life
I'm feeling like a stranger passing by
You know we all need help and I
Could really use a line

You know we all need help and I
Could really use a line
