

# Could It Be Love

Mike Williams

Could it be love?  
Could it be love or a lucid dream?  
'Cause all I want is in front of me  
Now I believe in it after all  
Could it be love?

I ain't got no doubt  
Got no doubt it's you, no doubt it's you  
The second time around  
Someone ceased right through  
It feels so good

Could it be love?  
Could it be love or a lucid dream?  
'Cause all I want is in front of me  
Now I believe in it after all  
Could it be love?

Could it be love?  
Could it be love or a lucid dream?  
'Cause all I want is in front of me  
Now I believe in it after all  
Could it be love?

Meet me where you are  
Closer to your skin, I'm paper thin  
I circle round your heart  
Won't you let me in, oh let me in

But if you let me go, but if you let me go-oh  
I don't wanna feel it all  
Don't wanna feel it all, don't wanna feel it all

Could it be love?  
Could it be love or a lucid dream?  
'Cause all I want is in front of me  
Now I believe in it after all  
Could it be love?

Could it be love?  
Could it be love or a lucid dream?  
'Cause all I want is in front of me  
Now I believe in it after all  
Could it be love?
