

Down The River

Mike Williams

I tried it
But living without you feels like dying
Can't hide it
You see right through the truth when I'm lying

Pull me closer, let me hold ya'
You're my church take this hurt from my shoulders
I was drowning 'till you found me
Now it's safe with your arms wrapped around me

'Cause all my tears and all my pains
Flow down the river when you're with me
All my fears and past mistakes
Flow down the river when you're with me

Flow down the river when you're with me
All my fears and past mistakes
Flow down the river when you're with me

Flow down the river when you're with me

So heartless
That you're still running wild through the darkness
You're from heaven
I feel I don't deserve all your blessings

Pull me closer, let me hold ya'
You're my church take this hurt from my shoulders
I was drowning 'till you found me
Now it's safe with your arms wrapped around me

'Cause all my tears and all my pains
Flow down the river when you're with me
All my fears and past mistakes
Flow down the river when you're with me

Flow down the river when you're with me
All my fears and past mistakes
Flow down the river when you're with me

'Cause all my tears and all my pains
Flow down the river when you're with me
All my fears and past mistakes
Flow down the river when you're with me
