

Face Up To The Sun

Mike Williams

I'm running wild, 'till the unknown
But I can't go without, without you
So don't be blind, escape the ordinary
And don't be shy, don't be shy

Keep your face up to the sun
We're always on the run
On and on and on
You got to keep your face up to the sun
We're always on the run, we're always on the run

Keep your face up to the sun
We're always on the run, always on the run

Keep your face up to the sun
We're always on the run
On and on and on
You got to keep your face up to the sun
We're always on the run, we're always on the run

Crossing lines, be unstoppable
Keep reachin' for those heights, those heights
Oh worth your while, nothing to lose
We hold on tight, hold on tight

Keep your face up to the sun
We're always on the run
On and on and on
You got to keep your face up to the sun
We're always on the run, always on the run

(We're always on the run, always on the run)

Keep your face up to the sun
We're always on the run, we're always on the run

Keep your face up to the sun
We're always on the run
On and on and on
You got to keep your face up to the sun
We're always on the run, always on the run

Keep your face up to the sun
We're always on the run, we're always on the run
