

Kylie

Mike Williams

Kylie give me just a chance
Let's go out and dance
We can get into the groove
I can watch you move
Later you can sing to me
Like a shining star
But I rather do you on the backseat of my car

But I rather do you on the backseat of my car

Baby, you're the one that heal my heart
I swear I'm not lying
Baby' don't matter in what trouble I am
I can see that you want me

Kylie give me just a chance
Let's go out and dance
We can get into the groove
I can watch you move
Later you can sing to me
Like a shining star
But I rather do you on the backseat of my car

But I rather do you on the backseat of my car

Kylie give me just a chance
Let's go out and dance
We can get into the groove
I can watch you move
Later you can sing to me
Like a shining star
But I rather do you on the backseat of my car
