

When The Sun Is Gone

Mike Williams

(When the sun, when the sun, when the sun, when the sun)

Hold me tight when you feel like it all goes wrong
Together we'll be okay
We're the light in the world when the sun is gone (Is gone)

We'll be running red lights till the end of the road
Gonna make it, you and I, baby, there I know
But I hold you tight in my arms when the sun is gone (Is gone)
When the sun, when the sun, when the sun is gone
When the sun, when the sun, when the sun is gone
Hold you tight in my arms when the sun is gone

(When the sun, when the sun, when the sun is gone)
Hold you tight in my arms when the sun is gone (Is gone)

Follow me, I will find higher ground
As long as we are together
Find the path through the light where the dusk fades out (Fade out)

We'll be running red lights till the end of the road
Gonna make it, you and I, baby, there I know
But I hold you tight in my arms when the sun is gone (Is gone)

(When the sun is gone)
When the sun, when the sun, when the sun is gone
When the sun, when the sun, when the sun is gone
When the sun, when the sun, when the sun is gone
When the sun, when the sun, when the sun is gone
When the sun, when the sun, when the sun is gone
When the sun, when the sun, when the sun is gone
Hold you tight in my arms when the sun is gone

When the sun, when the sun, when the sun is gone
When the sun, when the sun, when the sun is gone
Hold you tight in my arms when the sun is gone
