Got migraines all around the Tri-state  
All as I gave, used to come my place

Bad mind state, East where I find pain

It left ma's face grief in a small cave  
Match my J, Peachtree where I lay  
If cacti brings feast through the dry phase  
Try and find great sleep from the primate  
Psilocybe lead to letting time fade  
This is my face, speedin' and arrived late  
I gave 'em my way, Gs try to violate  
What else could I say? Sing like Rod Wave  
Like 'Pac, Dre the G, I'm tryna cosplay  
Out in , eat where the opps dead  
They got drop Swae Lee when the bop play  
That's all I got to make breeze on a hot day  
He said, "I got to let it be," when I got played
