

alarmed!

MIKE

Aight, bet
Uh

Every time you under my finger you far away
And I can't get to you in my car, only a J
I'm zooted, walkin' 'round in circles, hope to see your face
I miss you like I missed the stray shot, caught a lil' case
Now I'm sitting up in the Shell, shocked, missing the days
If it's a problem, just a holler away
If it's an issue, bullets hit you, they won't miss you today
About a dollar more, I'm back to my ways
You see these fucked up braids?
Ma', I'm tryna get paid

I hope niggas alarmed
I hope niggas alarmed (I hope niggas got they feelings out)
I hope niggas recharged (I hope niggas really get it now)
I hope niggas is sparced
I hope niggas alarmed
I hope niggas alarmed (I hope niggas got they feelings out)
I hope niggas recharged (I hope niggas really get it now)
I hope niggas is-

Uh, uh
Back to eating Sarge, now we got the beef resolved
Had to leave my heart, I had to get the demons off
How you seen the star? Remember we ain't meet at all
It's just me and wall, dripping tar, speaking flaws
When the mission start, I pray it never lead to war
It's hard to feel the parts, crazy I've been needing more
My addictions start, my frame of build is greedy core
Ugh, shit we blazing like a meteor
You needed drip? You need to pay me, what's the meeting for?
Got more ties than they got laces in the sneaker store
Where's the fire in me, why it's always freezing, Lord?
In my mind it's like confinement, I can be a bore
Why you lying like you sliding? You a Theodore
They try and hide the Richard, find a nigga teething torn
We specialize in clips and grindin', we been breaching doors

Sparse
I hope niggas alarmed
I hope niggas alarmed (I hope niggas got they feelings out)
I hope niggas recharged (I hope niggas really get it now)
I hope niggas is sparse
I hope niggas alarmed
I hope niggas alarmed (I hope niggas got they feelings out)
I hope niggas recharged (I hope niggas really get it now)
I hope niggas is-

Let-
Let's- Let's start from the beginning
