MIKE

Uh, hey, yeah, yeah, yeah, yeah

Keep bucks like a case of my fleas
Keep luck in a bubble in case of the breeze
Tripping got me stuck, left his brain on my knees
We was there everyday, I felt the pain in my knees
Like a stone in my heart with the rain on the trees
Call me God, so I think he might be praying to me
Play the spot, I can't be hanging with some stains on the tee
Painting pictures on this canvas, got some pain on my tee
Some paint on my tee, can't complain and repeat
This the life that you bought, you can't change the receipt
I know this life normally call, so I'm tending the deep
Niggas flocking for the stars, can't be attending the sheep
Niggas thought they was in talks but this is senator's pleas

Whenever you need a hand
I'm there for you, G, my mans
If you there to be, at last
We could stare at the sea
Again, again, again, again
Whenever you need a hand
I'm there for you, G, my mans
If you there to be, at last
We could stare at the sea, again
Again, again, again, again, again, again, again, again
Whenever you need a hand
I'm there for you, G, my mans
If you there to be, at last
We could stare at the sea, again
Again, again, again, again, again, again, again, again
Whenever you need a hand
I'll be there for you, G, my mans
