

## Do You Believe?

MIKE

Feel like crying, I'm prayin' to God  
You know it's my way so stay where you are  
Say a lil' fire, lil' baby a geek  
Live on the highway and stay in the car  
You know I'm plottin' today and tomorrow  
Keep that shit tight, it be safe in the seat  
Keep movin' hype, we gon' fade in the dark  
You know my life, I'm just playing a part  
We got that pipe, got a stain on my teeth  
The way you incite it, lil bae she petite  
Shit, if I die know who takin' the charge  
You know who having they way with the mob  
When it get dry, put rain in the streets  
You gon' talk hot, aim at the mean  
Brodie ain't got it, the baby receipts  
I'mma do what I promise, you make it a probl'

Yeah, I'm bout it, been waitin' for long  
In the shower, she playin' Solange  
Niggas sour, they sayin' I'm wrong  
Trust every hour a hater annoyed  
Trust, the louder, the greater the voice  
Where all that poutin', contagious as joy  
I'm used to vouchin', but that shit out  
Did that boy foul take the bass from his voice

Yeah, I'm the outlet, I be around  
Piecin' them ounces is makin' me coin  
Keep it ten thou', you know my crowd  
You gon' need power and status to join  
Yeah
