

## Eczema

MIKE

In my mind it's hella replaying  
Times I didn't behave, times I had to be patient  
Triumph on me each day, the light on me decaying  
Conspired with policed praise, solemnly I keep swaying  
Tryna find where peace stay, know I gotta eat baby  
At this steep age, my eras of defeat raised me  
Can you tell you how the crete taste, I can't tell you I'm the  
chief  
I heard that's what them streets sayin'  
It could be the feats maybe, maybe it's the cheese lately  
Navy in the sea, shit we steering till the sea waveless  
Breaking through the east, through the terror and the bleak pav  
ement  
Fear of being cheapskated, chase me out my dreams  
I'm the mirror of my deep hatred, complacent as I seem  
Most the errors of deceit ain't it, hearing what I bleed  
I be sharing til them teeth aching, staring cuz it's deep  
Sienna in the breeze, forgot to share my happy belated  
Bearer of the grief, I got angels, tryna replace it  
Merrier it be more I prepare to get my glee tainted  
Compare me to the weak, when I be carrying ya scene  
Wear it in my sleeve run these errands 'cuz the deed ancient

Hella replaying
