

Hunger

MIKE

Hunger make you eat your words instead, nigga
Watch that ego make your head bigger
I'm off the wall like a wet sticker
I hit the curb to get this bread thicker
I'ma get it like I said, sister, spliff got the room spinning
Deleting mail, making room for some new business
Run a fade if the shoe fitting
My mother's face seem new to me every time
I hit the photos for a better time
Trouble saving money, money I should set aside
Hungry for the cheddar rye, running through this genocide
Trouble tryna get a line, tryna find my mind again
I be tryna tap in it, running through Manhattan
With Press, he captain with the map and shit
I reach home and hit the mattress quick
There's a distance I been battling, tryna reach the goal
City like a sea, niggas leeching on your soul
Geeking for the gold, eating where my bros at
Blood still leaking out my nose
City like a sea, niggas leaching on your soul
Geeking for the gold, eating where my bros at, uh
