

## In My World

MIKE

Uh, uh uh uh  
Yeah, yeah, yeah, yeah

I know you gave me your heart, how did I mess that  
Another day, lay in the dark  
I need to check that, uh  
Gave me it all, I can't express back  
Looking way into the stars, I need to get back  
Another thing that bring me afar would be a setback  
Or why I stay with a spark, a little head crack  
It sucks that things remain where they are, I couldn't trespass  
My escape in the yard, or where to flex at the cut  
But I ain't staying too far from where the nets at  
Struggle, we be paying it large and getting less pack  
I know my greatest applause is in the end act  
I lust for the day's resolve, my chest snatched  
From hugs that will fade into fogs  
My best chance to touch just away 'til I'm gone  
Attest that for once, he be saying I'm wrong  
Sent fast a clutch little prayer, I'm strong  
Resent passed for months, I'm just playing along until it get b  
ad  
I'm stuck at the head of the storm, intense draft  
And cuts that you get from the war
