MIKE

They gon' judge me off my limp and my strong face
We on but we really came from shit, such a long way
Ain't nobody gave me hints it was gon' change
My thoughts and my spirit, too convinced of these false chains
That ain't a nigga I could call gang
Dog we don't really know your lyrics like LeBron James
Me and momma gettin' nearer when we on stage
That darkness in the mirror gettin' clearer so I spark flames
I'm the heart, the leader of the arcane
Stuck in that apartment, still thinking when the harm came
I tried to keep it G and learned the hard way
Sometimes you lowkey gotta be deceiving like the art game
For them niggas tryna reach, watch they arm break
It's beef, they gon' startle watch em freeze like they parfait
I'm still standing through debris with the scarred cape
Aziz, how I'm handling the grief and this large brain
Tryna find somewhere to bleed in this shark tank
Niggas tried to help you eat, why you start hating
Sleez, talking bout a deed you ain't partake in
Karma do it for you free, she ain't charge nothin'
She ain't charge nothin'
Talking bout a deed you ain't partake in
Karma do it for you free, she ain't charge nothin'

Ruthless since a teen but still moms favorite
She know I grew up in these streets, where the calm cave in
Imma pull you with this speech, let the palms take it
I'm by the palms baking, you know I burn a lot, the reason for
the strong fragrance
You can learn a lot from being in the wrong places
I ain't turn to God or Jesus, when they called Satan
Imma walk patient, living in the heat, with my thoughts racing
It's hard to feel like we at peace when we ain't talk ages
Can't control me with the breesh, so they start hating
I'm always going with my feet on the hard-pavement
