

no, no

MIKE

Uh, uh, uh, uh
Yeah, yeah, yeah
Yeah, yeah, yeah, yeah, yeah
Huh

Started pickin' up these habits at an early age
Gettin' faded in the madness just to cure the pain
All the times I felt the stabbin' on my vertebrae
My brother said if it's static, just a word away
City shady with a passion, what we heard today
Who try to take me out this planet, out this world of hate?
I took the stage and I was damaged, my determined ways
And took my lady to a casket off the pearly gates
Pearled and blazed it, held the cake
I was hurtin', savin' niggas who wouldn't do the same
Gave my purpose out to niggas who was choosin' fame
The truth amazing
So thinkin' 'bout it make me sick of what they do to hang
They try to frame me like I'm trippin', they will loot the game
'Cause when it wasn't for a minute, who was movin' strange?
It's soon to say
Me, I just pursue the pavement, this polluted maze
Tryna get the mood raisin' and accumulate
Found out that my tomb been waitin' while I zoot and pray
Honestly, the youth been dazin', livin' too awake
Uh, I'm livin' too awake

No, no
No, no
No, no
No, no
Honey, I love you so
Oh, oh, ooh
No, no
No, no
