

Prayers

MIKE

Ayy, ayy, ayy
(Uh, tryna get it, uh, tryna get it, get it)

Tryna get it, get it (Get it)
No time to get up, I be smoking 'til I feel beheaded (Yeah)
For the ones who wish it on me, hope these niggas perish
We was flying over London, wasn't interference (Nah)
But I could see it all, I saw my vision clearing (Uh)
You can't compare
I feel the whisper hit my ear when I be in the air and (Yeah)
Took my sister 'cause she missed her hearing
I swear I miss my parent
We was ready for the war if you quick to clear in
Since I was in the carriage
Holding in this frown like when you feel embarrassed
And instead of caring, I was heavy staring
Hoping not to feel despair

Hungry when I feel the air
Never sitting on a thought because my mission shared
If the last one didn't work, we'd try a different prayer
Try a different prayer, uh
Hungry when I feel the air
Never sitting on a thought because my mission shared
If the last one didn't work, we'd try a different prayer
Try a different prayer

Feel the changes in the air (Yeah)
Grew without a brother, so I keep some near (Near)
Who was really with you when you needed them? (Them, uh)
Sun gon' shine, hope to see the end (End)
Absentee mind, but the wisdom reach mine
Know they tryna bleed mine, making up for D-time
I'm lost to this shit (to this shit)
What's the cost for the lord to assist? (To assist)
Lost focus, found fog
Still my brothers shining, I'm in awe
Swim through waves to reach the shore
Know I felt the peace before
Need a bag for all the scars
Skin blacker than the star zone
Still it's hard to catch him like a long throw

When I feel the air (Under where I'm from, uh)
Never sitting on a thought because my mission shared
If the last one didn't work, we'd try a different prayer
Try a different prayer, uh
Hungry when I feel the air
Never sitting on a thought because my mission shared
If the last one didn't work, we'd try a different prayer
Try a different prayer
