

Spun Out

MIKE

You are now listening to a dj blackpower production
You are now listening
Ch-ch-chyeah

Niggas don't wanna spin, they get spun out
I'll get up with you quick when the sun out
I got some niggas sick when I come out
I ain't come up from shit, I was done out

I'ma cover for twin, I ain't run out
I might cough from the spliff, spit a lung out
Don't get caught in that grip, you can't jump out
You got lost in your shit, now you want out
Oh, you thought you was big? You a bug-out
Tryna call on a wish, tryna luck out
Yeah, she appalled, all the spliff that I pump out
Already saw what it is, what you talkin' 'bout?
I ain't fallin' for fiction, you forgot
If I fall in, I fix it, I thug out
Yeah, I'm all on that shit you don't know 'bout
He got paw to his mitt, got a gun out
You try talk to my bitch, you get cussed out
Demons all in my crib, I'm at her house
You got saw by that kitty, your tongue out
I'm big dog in that city, you cut out
I got law, all the biddies and thugs out
Stackin' tall, gotta see me a hun' thou'

Niggas don't wanna spin, they get spun out
I'll get up with you quick when the sun out
I got some niggas sick when I come out
I ain't come up from shit, I was done out

Tryna run up a lick and get somethin' out
It was dark in the crib, I was bum out
How you start it and bitchin' to come out?
Too much heart for this shit, I might run out

Niggas don't wanna spin, they get spun out
I'll get up with you quick when the sun out
I got some niggas sick when I come out
I ain't come up from shit, I was done out

Tryna run up a lick and get somethin' out
It was dark in the crib, I was bum out
How you start it and bitchin' to come out?
Too much heart for this shit, I might run out
Niggas don't wanna spin, they get spun out
