

# Thug Anthem

MIKE

Mm, yeah, uh

I'm big, I let my nuts hang, and niggas know it's us  
We getting chicken like a mukbang, I'm messing with my cousin  
Now I'm just fishing through the mud bank  
I'm big on all the love  
But bud just give me what the hugs can't  
You triggered? Guess it's up  
The system know my gov', we getting richer in corrupt land  
Dealing with this trust and niggas didn't give a fuck, fam  
Still be in the slums frantic, risk to make a buck  
We know spitting ain't enough, gang  
The shit there ain't enough talent  
Niggas think it's luck, while we was tough, I saw a bunch panic  
Wither into dust, how you don't give into the rough planet?  
Bigger than I was, see my consistence give them much damage  
Sitting by my mup, he say he hit me when the stuff landing  
Busy getting stuck, I'm in the city full of cut granite  
Wishing I'm defundin' shit, different how bruh planned it  
(It wasn't what I thought it was)

It's me and Wiki, we the ones standing  
It's strictly busy when the bus landing  
We gon' come candid, it's me and MIKE  
Give you a peek of life, something subtle 'bout the semantics  
I rather play the tuck, not the club antics  
Told Al' let's take this one, another thug anthem  
We bout to make the jump, ain't nothing tangent  
My mans wants the answers

How you supposed to make something from nothing?  
It take more than discussion  
You want it? Run it, the come up don't come with instructions  
Let it bubble, don't rush it  
Trust, it's not coming as abrupt as you want it  
Covet every run that you fumble  
I don't lust it, I love it, the game is my bae  
I would take it on dates, to the park where I stayed  
'Til it was dark and I'd say the bars I thought of that day  
Once she gave me some play, blaze any stage I could play  
Ain't no fade I could take could make me stay in place  
In the face of decay, saw my neighborhood change  
In a sunken place  
Got me some budders and got a fuckin' fade and then I prayed  
Mistakes I can't erase  
Certain shit, can't explain, I can't entertain  
Can't contain, if only we kept with our grades  
Renegades, we was out at a tender age  
Now it's me and MIKE at center stage
