

true blood

MIKE

Uh, uh

Looking in the mirror, saw my youth was missing
Sister used to get along, but now she too religious
What's with my mom? See my heart begin to lose its pigment
Uh, small world, all I knew was different
In your eyes, I saw pearls and tears was really swimming
I used to ask you why you crying
You used to say you did it, with God
Before you died you said repair them bridges, with pops
I can't lie, it was a scary minute
Only share it on the surface, these some scary feelings
I tried
Lost connection, we was near to finished
Besides, was really clear, I need some years of healing
My mind, and it's fair if you dare to will it
The prize, you losing worth but we here for winning

Answer, why we in the church just because we sinning?
Your body in the dirt, my sky turned into ceilings
Uh, answer why we in the church just because we sinning?
Your body in the dirt, my sky turned into ceilings, uh
