

you've been blessed

MIKE

Ay, I just wanna make it to my birthday
Niggas out here turned dead and gone with no trace
Going out like a sucker, heard it was the worst way
Every loss is a lesson, it's a church day
God bless the brother who want more for himself
More for his family, seeking better health
I just wanna make it to my birthday
Niggas out here turned dead and gone with no trace
Going out like a sucker, heard it was the worst way
Every loss is a lesson, it's a church day
God bless the brother who want more for himself
More for his family, seeking better health

Just let them get some sauce so obvious, can't you tell?
Almost fell, got saved by the bell, couldn't do by myself
Team so strong, roll deep like Adele, eyes low, wonder why, take a smell
Open up your eyes, take a look around, take a look around, take a look around

Might shed a tear for her
Nowadays, I am trying to make fair on my word
In this maze, I was lost, lost my parents at birth
But it made me a God, I be wearing my work
From the caves to the stage, I be hearing my verse
Every word, detachment, I can feel from this earth
My momma love me, she was there on my worst
So many pennies I had stole from your purse
Why I'm loyal to this currency's curse
A brighter mind, but it's currently dirt
It's hard to find what you want to be first
Why try and I accompanied cure
Why try, why try and I accompanied cure
Hard to find what you want to be first
Just my mind but this money a perk
This ain't the life I wanted at first
This ain't the life

I just wanna make it to my birthday
Niggas out here turned dead and gone with no trace
Going out like a sucker, heard it was the worst way
Every loss is a lesson, it's a church day
God bless the brother who want more for himself
More for his family, seeking better health
