

California skies

Mikey Wax

Faster than a plane
Flies over your head
Faster than the autumn leaves turn snow under your sled
I'm suddenly alive
As california skies
Melt away the thoughts that have been frozen in my mind

Are you running from the pain?
I am
I hope that love will save the day
How much longer will you wait?
I don't know, as long as it takes
What if everythings the same?
I don't know
I hope that love will save the day

Faster than her words get tangled up in lies
Faster than the wind can blow her hair over her eyes
I'm suddenly alive as California skies
Melt away the thoughts that have been frozen in my mind

Are you running from the pain?
I may, I hope that love will save the day
How much longer will you wait?
I don't know as long as it takes
And what if everythings the same?
Oh well, I hope that love will save the day

Awake

What if everythings the same
I don't care
I hope that love will save the day
