

For better or worse

Mikey Wax

Hold on, it's getting bumpy
lean on me if you need some comfort
I'm still here to hide all your fears

Though it's long past happy endings
just two of us pretending
but we're so good that love reappears

And there's nothing we can't weather
it's two of us together
for better or worse

Come on
so good at getting better
I promise it's forever
for better or worse

Sorry
But sorry doesn't cut it
if we're not learning from it
no sorry doesn't work anymore

Cause now we're just leaning on each other
we're enemies turned lovers
sorry might just move this along

And there's nothing we can't weather
it's two of us together
for better or worse

Come on
so good at getting better
I promise it's forever
for better or worse

Oh come on
We're good at getting better
I promise it's forever
for better or worse

and there's nothing we can't weather
it's two of us together
for better or worse

Hold on it's getting bumpy
lean on me if you need some comfort
I'm still here to hide all your fears
