How It Feels

Mikey Wax

It gets harder everyday
I take my mind off you but that don't stop the pain
And I know that my friends say
Just give it time
But time don't seem to change
And it gets longer everyday
Been staying up all night just thinking of your face
And all the things I'd like to say
I give it time, but time don't seem to change

This is how it feels when you love somebody
You give it time to heel and I need you now
This is how it feels when you love somebody
This is what you get when you love someone for real
Cause it gets harder everyday
You know I saw you took our pictures off your facebook page
I wonder should I do the same?
Or give it time, but time don't seem to change

This is how it feels when you love somebody
You give it time to heel and I need you now
This is how it feels when you love somebody
This is what you get when you love someone for real

Where do I run?
Cause you're the one
I've counted on to bring the light into the day
We're both wrong but you know I'll take the blame

Cause It gets harder everyday
I take my mind off you but that don't stop the pain

This is how it feels when you love somebody
You give it time to heel and I need you now
This is how it feels when you love somebody
This is what you get when you love someone for real
