

# Monster

Mikky Ekko

You've gotta listen to the things that she says  
And be aware of her lies  
'Cause a wolf in sheep's clothing  
Will wait in the dark  
To pull it over your eyes

You've gotta look out for the way that she moves  
She'll turn your head inside out  
She'd like to let you think she's easy to please  
While a different monster lurks about

I'm starting to think she's just a monster in my head  
Wearing a blue dress  
I'm starting to think she's just a monster in my head  
Wearing a blue dress

She'll try to tell you that it's all in your head  
She'll string you out in the night  
She's got to make you think she's easy to please  
'Cause the kiss from her lips is a different kind

I'm starting to think she's just a monster in my head  
Wearing a blue dress  
I'm starting to think she's just a monster in my head  
Wearing a blue dress

Careful, careful my darling  
'Cause there's a lion in the weeds  
He sees you got vultures watching

It's an animal disease  
Careful, careful we land  
Now, now, now  
We got his to bring him down  
Down, down, down

I'm starting to think she's just a monster in my head  
Wearing a blue dress  
I'm starting to think she's just a monster in my head  
Wearing a blue dress
