

## Courage Is Just Well Concealed Fear

Mikoto

Being alive never meant so much.  
Your racing heartbeat tells you  
something, just stick around.  
It simply says just stick around.  
I thought you said that we were in this together.  
The frustration is taking over me and I won't lose hope.  
Stay young! Just don't let me down, giving up now.  
I can't be held responsible for everything,  
this time I won't let you down.  
Motivation runs short,  
close your eyes.  
Cross your fingers and hope to die,  
this is what, keeps me alive.  
This time I won't, this time I won't let you down.  
This time I won't I swear I won't let you down.
