

Dancing With My Daddy

Mila J

That's my hero forever
Ain't no other daddy better
This is love without a limit
So my loyalty is endless
Everyday, I give him his flowers
Taught me how to use my power
Mind elevation
Question every situation

Nobody in this world could love a girl
More than her father
Gave me confidence
Feel like I could walk on water
Dancing with my daddy

'Til time stop, I'ma be dancing with my daddy (Dancing with my daddy)
Every year that goes by, dancing with my daddy (I'll be dancing with my daddy)
Life is too short, you only get one daddy (Only get one daddy)
'Til time stop, I'ma be dancing with my daddy, dancing with my daddy

My baby queen
I remember bringing you home in a limosine
You came in this world more precious to me
Than diamonds and pearls
And I gave you the key to life
It feel to stand back and watch you drive in the sunlight
And now you're on a higher plane
The people all over the world know Mila's name
Nefertiti, Queen of Sheba, Queen Nzinga
My gift from the universe, Queen Jamila
And everytime I see your face, I'm happy
Come here, girl, dance with your daddy

'Til time stop, I'ma be dancing with my daddy (Dancing with my daddy)
Every year that goes by, dancing with my daddy (I'll be dancing with my daddy)
Life is too short, you only get one daddy (Only get one daddy)
'Til time stop, I'ma be dancing with my daddy, dancing with my daddy

'Til time stop, I'ma be dancing with my daddy (Dancing with my daddy)
Every year that goes by, dancing with my daddy (I'll be dancing with my daddy)
Life is too short, you only get one daddy (Only get one daddy)
'Til time stop, I'ma be dancing with my daddy, dancing with my daddy

Until the end of time, I'll be dancing with my daddy
Dancing with my daddy (Dancing with my daddy)
I'll be dancing with my daddy, yup
(Dancing with my daddy) You only get one daddy {I'm proud of my Mila J}
I'll be dancing with my daddy, hey
{I'm proud to be chosen by her, to be her Pa} You only get one daddy, yup
Papa Chill {I love you, Jamila}
I love you too, daddy {Beyond the moon, the stars, the sun and the universe}
