

Desiigner

Mila J

What do you mean? (what?)
What the fuck do you mean? (fuck)
A-bout this ain't the end
All the money I spent, go try
I wish you was
Try to act like a nigga wasn't there when life wasn't good
I wish you wouldn't try to leave
I'll fuck all your friends, you know me

You know a nigga petty
You know a nigga petty for sure
You know that you ain't ready
For what I'm about to do
I hope you ate your weedies
'Cause it's gonna take way more than a well-balanced breakfast to get through this
I'm gon' fuck your friends bitch

Fuckin' Amanda, fuckin' Samantha
While I'm playin' "Panda"
Got your best friend in the back of the Benz
Goin' stupid into "Panda"
That song never gets old
I can get blow while bumpin' "Panda"
That song was your favorite
That's why I play it

I'ma fuck your friends to "Panda" (Panda, Panda)
One by one, I'ma get it done
I'ma fuck your friends to "Panda" (Panda, Panda)
You can say goodbye as long as I can play Desiigner (hol' up)

What did you say? (uh?)
You said you always love me
He crushed your heart then you hope to die
And you still alive, you liar
All these lies you tellin' me got you lookin' mad fake
I thought you loved me the real way
I'ma light my way to the bank
Let's see how you move on with no motherfuckin' gas in the tank

You know a nigga petty
You know a nigga petty for sure
You know that you ain't ready
For what I'm about to do
I hope you ate your weedies
'Cause it's gonna take more than a well-balanced breakfast to get through this
I'm gon' fuck your friends bitch

Fuckin' Amanda, fuckin' Samantha
While I'm playin' "Panda"
Got your best friend in the back of the Benz
Goin' stupid into "Panda"
That song never gets old
I can get blow while bumpin' "Panda"
That song was your favorite

I'ma fuck your friends to "Panda" (Panda, Panda)
One by one, I'ma get it done
I'ma fuck your friends to "Panda" (Panda, Panda)
You can say goodbye as long as I can play Desiigner (hol' up)

I can play Desiigner (hol' up)
As long as I can play Desiigner (hol' up)
I can play Desiigner
You can say goodbye as long as I can play Desiigner
