

Easier

Mila J

Yeah

Girl I'm on my way, but you seem so far
Girl you high as hell, somewhere up there in the stars
This could be a whole lot lot easier, if you
Come down
Tryna find my way, but you seem so far
Girl you high as hell, somewhere up there in the stars
This could be a whole lot lot easier, if you come down

Girl I see ya gotta heart like me, yeah
Move in these streets out here chasin' your fame, yeah
Started off playin' hard to get
But I stayed persistent by gettin' your name
What I want you to do is finally notice me
Forever my lady like I'm Jodeci
I'll be holdin' you, you holdin' me, yeah
We'll be makin' love love, yeah
We'll be doing things I cannot speak of
I just need for you to be in reach, yeah
I just need for you to be in reach
I'm not afraid to draw the line
If you're not afraid to cross it
Not afraid to live a life
Even if you're not the boss in
Girl I think ya hella cool
Matter fact I think you're awesome
I think you're nice and beautiful
Don't get me wrong I love you bossin'
Yeah, don't get me wrong I love you bossin'

'Cause real men out here like me hard to find
I just hope that we can, reinvent this love make it devine, I know
Real woman like you is hard to get
Girl I love the way you stack that money up, make it legit

Girl I'm on my way, but you seem so far
Girl you high as hell, somewhere up there in the stars
This could be a whole lot lot easier, if you
Come down
Tryna find my way, but you seem so far
Girl you high as hell, somewhere up there in the stars
This could be a whole lot lot easier, if you come down

I've been up here hoppin' on a flight in the sky
It's the reason why I had to say goodbye to the ground
I held a nigga down, no more lookin' down
'Cause I know the sound
Who knows the sound?
Of my heart beating right now
Only way you'll ever know if
My heart beats for you is when you get close
But if I'm tryna fly, you gon' have to find a way, to catch me if I fall

Girl I'm on my way, but you seem so far
Girl you high as hell, somewhere up there in the stars
This could be a whole lot lot easier, if you

Come down
Tryna find my way, but you seem so far
Girl you high as hell, somewhere up there in the stars
This could be a whole lot lot easier, if you come down

Just Ej
Oh, you gotta come down (da down)
Da down da, da down
Down, down
