

Hard to Read

Mila J

They make the signs (make the signs)
So you could read it
You could read the signs (read the signs)
They make the lines (make the lines)
So you could read it
Read between the lines (between the lines)

It's right or wrong (right or wrong)
You know what you be doing wrong
You're never right
So I can't read the feelings on your mind

Hard to read, hard to read, hard to read
You're kinda hard to read
Hard to read, hard to read, hard to read
You're kinda hard to read

They make the signs (make the signs)
So you could read it
You could read the signs (read the signs)
They make the lines (make the lines)
So you could read it
Read between the lines (read between the lines)

I never know
Because you told me you was true
That's what we do
We say the lies and keep the truth

Everybody here so cool
Ain't nobody here got feelings
Everybody fakin' somethin'
Actin' like they the realest
What's so real about this?
I'm just tryna see it
If you ain't have so much secrets
I don't think that you would be so hard to read

Hard to read, hard to read, hard to read
You're kinda hard to read
Hard to read, hard to read, hard to read
You're kinda hard to read
