

Let's Change the World

Mila J

If I never told you that I'm sorry
What if I never said it?
Here you go: "I'm sorry"
But if you no longer see me in that light I shouldn't fight
'Cause you do know that I want ya
But you don't know that I need you to

Stop this world from fighting
We fighting for no reason
'Cause if we stop our fighting, they'll have us to believe in
Let's stop the world from crying, it's too many of us here dying
It's our job to make it stop

Let's change the world
Think of the little boys and the little girls
Let's change the world
Think of the little boys and the little girls
Baby we could change the world

If I never told you I forgive you
If we never got to that part here, we are now
It's all good
But if you no longer see me in that light I shouldn't fight
'Cause you do know that I want ya
But you don't know that I need you to

Stop this world from fighting
We fighting for no reason
'Cause if we stop our fighting, they'll have us to believe in
Let's stop the world from crying, it's too many of us here dying
It's our job to make it stop

Let's change the world
Think of the little boys and the little girls
Let's change the world
Think of the little boys and the little girls
Baby we could change the world
