Mila J

I ain't never felt this way
When you're here I feel no more pain
No more shame
And when the clouds are in the sky we dance in the rain
Then I gotta keep it real with ya
I'm a keep it real with ya
You the only person that I see
Like its only you and me when I chill with ya
On my mind and my heart every minute
Yeah you don't want to call you my nigga
Love's so strong can't break the bond
Only God coulda did it
Focused, I'm focused
You know this
I'm open
I'm kind of feeling lost in the moment
Down for the ride
I will be right by your side if you need me I'm on it for real

I want it now
I love the way this nigga put it down
I can't explain the way I'm feeling now
You focused
You focused
I love the way you got me here like
Oohwee
Oohwee

Got me feeling like ''Oh lord''
Never question that I'm all yours
All yours, and they all know it
They gon' try to break us down don't fall for it
I see the jealousy more than just a little bit
Want somebody to call to make her feel this
Wait its the perfect picture
Pay no mind if they really don't get us uh
Cause we ain't got no limits
No limits
Swear this shit is crazy, this shit is so crazy
You feelin' like no other feeling
Focused, I'm focused
You know this
I'm open
I'm kind of feeling lost in the moment
Down for the ride
I will be right by your side if you need me I'm on it for real

I want it now
I love the way this nigga put it down
