

Real Issues

Mila J

I mean I been busy
I had a whole lotta girl keepin' me busy
What the fuck am I sayin'?
I been missin' you the long way

I been really really fucking busy
Been gettin' money hittin' up the city
Man why the fuck am I lyin'?
I been feelin' broke this whole time

I mean really I be doin' shit
I'm in a group chat with my crew and shit
I mean sometimes I be LOL-ing
The world is smilin' without you and shit
That ain't too legit

I just wanna be real witchu
I feel like sharin' how I feel witchu
Tell me when I could eat a meal witchu
So we could talk about the real issue

'Cause real people got real issues
Follow the tears, you'll find real tissues
I just wanna be real witchu
So can we talk about the real issue
(Can we just talk about it?)

You know I been waitin'
I feel like Omar Epps in Love & Basketball
When he loves Sanaa Lathan
Why did I bring up Sanaa Lathan?
I can feel your eye raisin'

I just know the real you
I always will
And if he ain't tryna feel you
You know I will
But not if you gon' leave me in the dark
'Cause you know you good for breakin' a heart
I learned a lot durin' our time apart
I learned that we should never be apart
But before we start

I just wanna be real witchu
I feel like sharin' how I feel witchu
Tell me when I could eat a meal witchu
So we could talk about the real issue

'Cause real people got real issues
Follow the tears, you'll find real tissues
I just wanna be real witchu
So can we talk about the real issue
Real issue

It's time we talk about it
