

# Unconditional

Mila J

Unconditional, that's the way it's gotta be  
If you love me

'Cause I tried every single thing I could try  
I was lying every time I said goodbye  
I tried every time I swear I tried  
Sigh, did I say goodbye? I was tryna say goodbye

I tried to leave you, I never succeeded  
When I said I didn't need you, I swear I didn't mean it  
Here I am, here I am  
Got my heart in my hand  
I'm gon' tell you the plan  
It's all yours under one condition

Unconditional, that's the way it's gotta be  
If you love me  
If you love me, better make your love be unconditional  
Unconditional, that's the way it's gotta be  
If you love me  
If you love me, that's if you love me

I've fight every single fight I could fight  
If I can tell you that I love you at the end of the night  
That's right we go high and low but I-  
Know we gon' make through 'cause I'll always be by your side

I tried to leave you, I never succeeded  
When I said I didn't need you, I swear I didn't mean it  
Here I am, here I am  
Got my heart in my hand  
I'm gon' tell you the plan  
It's all yours under one condition

Unconditional (no), that's the way it's gotta be (that's the way it's gotta be)  
If you love me  
If you love me, better make your love be unconditional  
Unconditional, that's the way it's gotta be  
If you love me  
If you love me, that's if you love me
